

GUESS WHICH ONE HAS 505 HP.

European specification Z06. Chevy is a trademark of the GM Corp. ©2006 GM Corp.

Nope. Guess again. The ALMS Corvette C6.R on the left, pushes 590 horsepower. By utilizing the same 7-liter Chevy small-block V8, the street-legal Corvette Z06 on the right cranks out a whopping 505 horsepower. If you're asking yourself "why," then the Z06 isn't for you. If you're asking yourself "where do I get one?" visit your local Chevy dealer today
